### Kobe Steel Materials Statement

The Japanese steel group, Kobe Steel, reported on October 8<sup>th</sup> 2017 that it had sold aluminium, copper and steel products from certain manufacturing lots that did not comply with product specifications and with falsified inspection certificates.

As a result, Webtec has undertaken an audit of our suppliers who supply aluminium, copper and steel directly, or whose product contains these materials and where the strength or durability of the material is vital to the safe working of that product. Following these extensive checks, we can confirm that, to the best of our knowledge, all Webtec supplied products are free from affected Kobe Steel material.

A handwritten signature in black ink, appearing to be "S. Cuthbert", with a long horizontal line extending to the right.
